Dear Principle,

If our school has money to spend on improving the buildings and facilities, our class would like the library to be extended.

Firstly, school needs to buy new books because old ones aren't in good quality. Also it should buy more books because the amount of students who like reading become bigger every year.

Secondly, all resources like computers should be upgraded. The computers that we have now at our school are already too old. All programs they have became old too and it isn't comfortable to work on them. Students want to work on computers that are faster and don't turning off by themselves.

In the conclusion, it needs to be saying that the main thing that money should be spenden on is our school library.

Best wishes,

N
