Writing

Today I heard that our school has money to spend on improving the building and facilities. I would like to tell you about my benefits of it.

Our school has lots of problems: small library, old computers, broken furniture and so on. With ^{these} this money, we can solve all our problems. Firstly, we should expand the library and buy new books for it. Almost all students go to the library once a week, and it would be great if this place ^{would} become more useful. Secondly, we have old, slow computers with Windows XP. Nowadays modern school has computers with Windows 10 or even I mac, but the last one costs lots of money, which we can't afford ~~them~~. Thirdly, I would like to have in our school a large gym with a new sport equipment, for table tennis or gymnastics.

In conclusion, it's great that our government invests money in our school, which has many problems, but they can be solved.
