Writing

Our class decided to propose the extension of school library, and now I will tell why:

The school library is a place where most of students that come here, are interested in culture, history, sci-fi literature or just in doing their homework. And because the amount of this people is too high, the library often runs out of books, or even gets crowded, so it definitely needs an extension.

Except the extension, we suggest to make an electronic library system, because it ~~is~~ would be much easier for students to find the book they need, and this will help to avoid library getting crowded.

Overall, I want to mention that the library is the biggest source of knowledge, and the knowledge - is the most important thing in life.
