As our school has money for improving facilities, our class had a meeting on which we decided that the best way to spend money is extending the library. And so we considered some benefits of it. All of us agreed that computers would help a lot with searching information or doing digital education tasks, besides some pupils hasn't got computer at home so they could do homework in school library. The second benefit is that quality of education of each student could be better if school will buy more books. Some books for lessons can not be found in our library, even though they're necessary. Also we noted lack of important historical materials such as journals, scientific researches. All of this materials could help students with their projects.

It would be great if our library had a place to study, so we think it may improve level of education among students, because you can do homework in silence with useful materials right there. In general, all of this improvements will help us with studying, now most of us

can't use library materials properly, but if there were enough amount of books and computers it definitely will affect our grades, make studying more easy and better, and help with passing exams. That's all benefits of our proposal, hope you will consider them.
